

Preliminary Operating Statistics

For the 3rd Quarter 2019

Asia Aviation Plc is pleased to announce the operating statistics for the 3rd Quarter of the Financial Year 2019 (“3Q2019”).

Thai AirAsia (“TAA”) posted a passenger load factor of 81 percent during 3Q2019, similarly reported in the same period last year. This was due to a parallel increase in the number of passengers and capacity during the said quarter. The number of passengers carried during the quarter increased by 3 percent year-on-year to 5.28 million, while Available Seat Kilometres (“ASK”) increased by 10 percent year-on-year to 6,766 million in 3Q2019 on the back of increased seat capacity and the addition of new routes in the first nine months of the year. In 3Q2019, TAA began serving the Bangkok – Sihanoukville route in Cambodia. Also, TAA undertook capacity realignment during the off-peak season to match demand. The fleet size of TAA remained unchanged at 62 aircraft as at the end of September 2019 compared with the end of June 2019.
